Ayush Kumar Yadav

Mumbai, Maharashtra, India ayushyadavv1400@gmail.com 9696221353 in/ayush-kumar-yadav-bab416241 www.ayush1400.pro/

SUMMARY

Aspiring Data Scientist with a solid foundation in Python, SQL, and machine learning, supported by hands-on project work in credit card fraud detection. Currently pursuing a Data Science & Artificial Intelligence program and bringing industry experience as an Associate Consultant with exposure to data-driven solutions.

EXPERIENCE

Associate Consultant (Developer)

MInSysT Consulting Private Limited **October 2021 - Present, Thane, Maharashtra**

- Developed and maintained jewellery e-commerce web and mobile applications using React, Next.js, and Flutter. Collaborated with cross-functional teams to build responsive UIs, integrate APIs, and optimize performance for seamless user experiences across platforms.

Intern

MInSysT Consulting Private Limited **July 2025 - September 2025, Thane Maharashtra**

- Developed and maintained jewellery e-commerce web and mobile applications using Next.js and Flutter, ensuring responsive design and seamless user experience.

PROJECT

AU Silver

MInSysT Consulting Private Limited • www.ausilver.in/

- Developed a production-ready jewellery e-commerce mobile app featuring product catalog, order management, shipment tracking, and secure API integration.

Maharana Silver

MInSysT Consulting Private Limited • maharanasilver.com/

- Designed and developed full-stack mobile application for jewellery retail businesses, featuring product listings, secure order processing, inventory management, backend API integrations, and shipment tracking, deployed for real-world commercial use.

Credit Card Fraud Detection Using Machine Learning

United College of Engineering and Research

- Built an end-to-end machine learning system to detect fraudulent credit card transactions using supervised learning techniques. Performed data preprocessing, feature scaling, and class imbalance handling. Trained and evaluated models such as Logistic Regression, Random Forest, and XGBoost, achieving high recall on fraudulent transactions. Assessed performance using precision, recall, F1-score, and ROC-AUC to ensure reliable fraud detection.

EDUCATION

Data Science & Analytics with AI (Ongoing)

IT Vedant • Andheri Mumbai, Maharashtra

Bachelor of Technology

United College of Engineering and Research • Prayagraj • 2025

SKILLS

Programming: Python, SQL, JavaScript

Data Analysis & Manipulation: Pandas, NumPy

Machine Learning: Scikit-learn, XGBoost, Model Evaluation (Precision, Recall, F1-score, ROC-AUC)

Visualization & BI: Matplotlib, Seaborn, Power BI

Databases: MySQL

Statistics: Probability, Hypothesis Testing, Class Imbalance Handling

Tools & Version Control: Jupyter Notebook, Google Colab, Git, GitHub, GitLab
